

## Programme Envol (an opportunity to soar)

A sponsorship program initiated and funded by the African diaspora and Africans at heart

Implemented by Agir Plus

### **Programme Envol**

Envol is an initiative that aims to provide educational opportunities to vulnerable children and those from disadvantaged backgrounds. Initiated and funded by the African diaspora and Africans at heart, it remains proof of their commitment to "give back" in order to promote human dignity in Benin.

Envol will target children aged 0-18, especially those of school age based on a set of well-defined vulnerability criteria in collaboration with the communities.

Our model is to sponsor a group of children at risk of dropping out from school due to poverty, chores, early marriage, and child labor. It is an integrated program of psychosocial support through a mentoring program and academic support that allows children from disadvantaged background to have access to school and to succeed through school. In sponsoring a group of children in a specific community, we have the opportunity to assess our theory of change and transformative progress made by all beneficiaries (students, mothers, and community agents).

### **Your money will be used on:**

Beneficiaries	Type of support	Details of the support
Children	Scholarships	<ul style="list-style-type: none"><li>- School fees</li><li>- School supplies and books</li><li>- School uniforms</li><li>- Toiletries</li><li>- extra-curricular activities</li></ul>
